

THE WRANGELL SENTINEL

VOL. XVI. NO. 15

WRANGELL, ALASKA, THURSDAY, APRIL 26, 1917

PRICE TEN CENTS

GERMANS SINK FORTY ALLIED VESSELS IN WEEK

LONDON, April 26.—The sinking of forty vessels by submarines during the week ending Tuesday is causing grave comments by the British newspapers.

LONDON, April 25.—Captain Rice of the American Steamship Mongolia which arrived at a British port today announced that the Mongolia had fired the first gun of the war for the United States and sunk a German submarine. The naval gunners on board made a clean hit at one thousand yards. The submarine was about to attack the great liner in British waters on April 19. Captain Rice says there is absolutely no doubt but that the U boat was destroyed.

PEKIN, April 26.—At a conference of provisional military governors, the premier presiding, it was voted unanimously that China should enter the war against Germany. Parliament is overwhelmingly in favor of declaring war although the president is still undecided.

WASHINGTON, April 26.—The American schooner Birdsall has been sunk by a German submarine. The crew were rescued by a British patrol boat.

WASHINGTON, April 26.—Reports to the State Department through official channels tell of a strike of 250,000 laborers in Berlin. The Department says that the incident shows the growth of a desire for peace on the part of workmen.

WASHINGTON, April 26.—Following an hour's conference between President Wilson and former Secretary of State Elihu Root today it was admitted in official circles that Root had accepted the chairmanship of the committee to go to Russia. When seen by a press representative Root said announcement regarding the appointment must come from the President.

Washington, April 26.—Elihu Root formally accepted appointment.

PARIS, April 26.—The German destroyer flotilla bombarded Dunkirk ten minutes then fled to Ostend at great speed pursued by British and French patrol ships. A French torpedo boat was sunk in the engagement.

WASHINGTON, April 26.—Champ Clarke made a bitter attack from the floor on the President's conscription bill, declaring that Missourians classed the word conscript with convict.

LONDON, April 26.—A dispatch published this morning states that there is an exodus of Russians from Petrograd to Moscow through fear from the advance of the Germans.

LONDON, April 26.—General Haig reports further slight advance south of Scarpe and that thousands of dead Germans are lying on the battle field.

BERLIN, April 26.—The repeated British attacks south of Scarpe have been repulsed with heavy losses.

British Headquarters in France.—The is a comparative lull in fighting east of the Arras. The German counter attacks in an effort to retake positions captured by British have worn themselves out. The British have managed to creep forward still further.

Washington, April 26.—Col. John L. Hayden has been assigned command of the North Pacific Coast with headquarters at Seattle.

London, April 26.—The taking of the first American prisoner of war was reported to the American embassy today through the American Consul at Glasgow.

WASHINGTON, April 26.—That national prohibition may come as a result of the war is the possibility indicated by the statements of members of Congress today. The Democrats caucused this afternoon and agreed in caucus to consider during this session only war and defense legislation that the President might recommend. In stating this the Democratic legislators declared that this legislation may include national prohibition if the President urges it as a war measure, and that it will be urged by him is believed in many quarters.

WASHINGTON, April 24.—The house leaders are confident that no nation-wide prohibition legislation will be passed this congressional session.

LONDON, April 24.—The British army in France had one of the heaviest engagements of the war last night on an eight mile front from Vimy ridge to below Croisilles, the Germans throwing their full force into resistance. The British took over one thousand prisoners.

LATE NEWS BY CABLE

Not a Bloodless War.
NEW YORK, April 23.—Arthur J. Balfour, England's foreign minister, delivered his first message to the American people yesterday on his arrival at an American port—unnamed—when he said that the people should not be deceived in the belief that the country was facing a short and bloodless war. Summing up his message, he said:
"The American people must realize that they are facing a real fight and must be prepared for great individual sacrifice, for it will be done. 'We have come,' he said, 'to help America to turn the first page in a new chapter in the history of man-kind. I appreciate that it will be quite a little time before the people of the United States, to borrow an American phrase, 'Thoroughly realize what they are up against,' and I am quite sure that when Germany forced the United States into this war with her, she did not realize what she was going up against."

PARIS, April 23.—A report from the British and French headquarters on the western front says that with the capture of the village Gavelle yesterday, the last line of defense held by Hindenburg north of the Sambre river fell into their hands. In the capture were included several hundred prisoners and guns.

WASHINGTON, April 24.—The President signed the seven billion dollar bill today.

LONDON, April 23.—The British swept the valley of the Tigris yesterday a distance of eighty miles north of Bagdad, according to the war office bulletin this morning.

SEATTLE, April 26.—A private letter from William C. Redfield, Secretary of Commerce, says that it is imperative that Alaska mobilize her fisheries, that aside from the service so rendered to the country that the market she establishes at this time will be maintained when peace comes.

SEATTLE, April 23.—Logan Billingsley sawed his way out of the detention station Saturday night and escaped. He was being taken to McNeill's Island and would have left yesterday morning.

Fred and Ra Billingsley, began their term in the Whatcom county jail last Saturday night.

LONDON, April 25.—Spain has sent a note to Germany regarding submarines warning Germany that if she continues in her determination to sink all vessels that the Spanish government will take a step to defend its rights.

LONDON, April 25.—General Haig this morning reported the capture of three thousand Germans as a result of the Arras engagement.

LONDON, April 25.—Speaker Clarke has announced that he is opposed to conscription, and that he is in favor of letting the flower of the country volunteer rather than to draft them.

LONDON, April 25.—The British flying corps yesterday established a new record, bringing down forty German machines in an aerial battle which took place at an altitude of fifteen thousand feet.

ROME, April 24.—Corriere de Italia, the clerical organ, declares that it is able to confirm reports by Spanish newspapers that the immediate following of the German emperor are exercising pressure on him to abdicate.

Fifteen Million Dollars Damage at Douglas as Result of Cave-in

JUNEAU, April 23.—The Treadwell, the Mexican and the Seven Hundred mines were flooded when a cave-in occurred. The cave-in started about eleven o'clock Saturday night and within an hour, every level was filled with water from the bay. All the miners working at the time were given ample warning and escaped the last one reaching the top just as the water reached the upper levels. The estimated damage to the property is said to be fifteen million dollars. Eleven hundred men are out of work.

The constructing engineer, Mr. Bradley expressed his opinion that a bulkhead could be constructed and the water pumped out when operation could be resumed. Meanwhile, all the men who can be employed on the surface will be put to work at the Ready Bullion mine, the fourth mine of the group, although it is leaking the mine is still considered safe.

When the cave-in occurred, the Treadwell Natatorium as well as the fire Hall disappeared into a crevasse some four hundred feet deep. Other buildings are said to be in danger of going down as many large cracks indicate that more cave-ins are likely to occur. It was rumored this morning that the company might acquire the Nevada Creek property for the purpose of opening it.

SAN FRANCISCO, April 24.—In a statement issued today to the Associated Press, F. W. Bradley, president of the Treadwell Mines, declared that the directors of the Treadwell Mining Companies hope to continue to mine the properties flooded last Sunday morning on Douglas island. He says that they hope to do so by mining the ore under the "dugging" flooded, and to do it by tunneling twenty-four hundred feet beneath Gastineau channel at a depth of three thousand feet.

If this plan should be found not feasible, Mr. Bradley says, a cofferdam may be built and the water pumped from the flooded mines so that they could be worked on the same levels as before as well as on other levels.

THE MARY MALONEY LEAVES FOR CORDOVA

The Mary Maloney left Tuesday morning for the cannery of the Copper River Packing Co., 100 miles north of Cordova. The Mary had in tow a scow loaded with seine boats. There was also in tow six new gasoline boats—the "Winifred," the "Elizabeth," and four smaller boats, all of which were launched from the yards at Anna Cortes just before being brought north. The cannery of the Copper River Packing Co., near Cordova, and the cannery of Point Ward Packing Company are controlled by the same interests.

WANT WIRELESS STATION ON THE WEST COAST

Representative McCormack introduced yesterday in the House a memorial addressed to the secretary of war requesting that the government take steps to establish at Craig, on the West Coast of the Prince of Wales Island, a wireless station. Craig or Fish Egg, is a large fishing center and in close proximity are located canneries and mines. There is no way of communicating with that extensive area of high industrial and commercial area at the present time by telegraph. Mail service is some what irregular, especially in the winter time. A launch carries mail from Wrangell weekly and there is also a launch which makes trips to the West Coast from Ketchikan.

ALASKA SPRUCE FOR THE MANUFACTURE OF AEROPLANES

N. D. Chetham, of the Chetham Lumber Co. of New York, was registered at the Wrangell hotel this week.

Mr. Chetham's company is a large dealer and exporter of picked timber for special purposes for use in the United States and Europe.

In the past he has furnished considerable timber for piano manufacture. At present he has several large contracts to supply timber for aeroplane factories in both the United States and England. Mr. Chetham's mission to Alaska is to buy picked spruce timber for the manufacture of aeroplanes, and while in Wrangell he placed as large an order with the Willson & Sylvester Milling Company as they would accept. From Mr. Chetham it was learned that only the most perfect timber obtainable is used for the construction of aeroplanes. The entire framework, except the propeller, is always of picked spruce. The Alaska spruce is of a closer grain and stronger than the spruce of any other portion of the American continent.

As a result of the war the aeroplane industry has jumped to a place of great importance. Mr. Chetham's company has orders for heavy deliveries of lumber to aeroplane factories in both the United States and England for nine months ahead.

Mr. Chetham sailed north on the Spokane for Juneau and Douglas. After a few days on Gastineau channel he will return south as far as Ketchikan, from which port he will go to Prince Rupert, returning to New York over the Grand Trunk.

This is not Mr. Chetham's first visit to Alaska. He has been in the North several times within the past 20 years, and before leaving Wrangell stated that he would be back in Alaska on another trip in two months.

GERMANS SAFE IF THEY OBEY THE U. S. LAWS

That Germans who obey the law and do not talk will be safe from harm in the United States is the gist of an order from Attorney General T. W. Gregory, received by United States District Attorney James A. Smiser. In a letter to the Wrangell Sentinel, dated April 16, District Attorney Smiser authorizes the publication of the order, which is as follows:

Washington, D. C., April 6. To all United States Attorneys and Marshals:

Dear Sir:—You are hereby directed to give full publicity to the following statement:

No German alien enemy in this country, who has not hitherto been implicated in plots against the interests of the United States, need have fear of action by the Department of Justice so long as he observes the following warning:

Obeys the law; keep your mouth shut. Respectfully,

T. W. GREGORY, Attorney-General.

Thirty Years In Wrangell

There are many people in Alaska who are not exactly newcomers. Last month the Sentinel made mention that it had been 40 years since Judge Thomas first landed in Wrangell. Thirty years ago this month L. M. Churchill landed in Wrangell and has lived here continuously ever since, having made but one trip to the States during that time.

Civic Club Improvement Inaugurates Two Contests

Spring is here and the winter's accumulation of rubbish is showing up in all its hideousness. At present our minds are filled with our country's great need. We know not what the future holds in store for us, but we cannot neglect the smaller duties and the many little things that make to our every day life right at home. "Cleanliness is akin to Godliness" and so closely related to health and the general welfare of a community that it must not be overlooked even the larger issues of the day occupy our foremost thoughts.

The Civic Club does not intend to invade anyone's premises nor to undertake a wholesale collection of garbage and tin cans. Individually, the members will make their own surroundings as neat and cleanly as possible; collectively, they are appealing to the civic pride of the people of Wrangell to aid in a general Spring clean-up. To encourage the young people of the community to co-operate in the effort to make Wrangell as clean and pleasing to the eye as possible, the club takes pleasure in announcing the following contests:

Yard Contest

A first prize of \$5.00, a second prize of \$4.00, and a third prize of \$3.00 will be given the boy or girl who accomplishes the greatest improvement in any yard or vacant lot. Judging will be done by photographs. A picture must be taken of the place to be improved before any work is done. Then the place must be cleared of rubbish and made as attractive as possible by the planting of flower or vegetable seeds and it must be cared for during the summer months. The second picture should be taken when the yard or lot is at its best, previous to August 15, when the contest closes. The work must be done by children under 16 years of age. There is no objection to children of the same family working together but only one prize will be awarded on each improvement. While the judging will be done from photographs, the committee reserves the right to accompany the pictures with information concerning the size of the plot improved and the number of children working upon it, when turning them over to the judges for final decision.

Window-box Contest

Realizing that all boys and girls do not have yards or vacant lots to work on, the club will give a first prize of \$3.00, a second prize of \$2.00 and a third prize of \$1.00 to the boy or girl under 16 years of age who can show the most attractive window-box by Aug. 15. These window-boxes may be made and filled by adult members of the family, but they must be planted and cared for by the boys and girls themselves. No photographs need be taken in this contest.

All who wish to enter this contest will please present their names to Miss Woods or Mrs. M. O. Johnson before May 15.

The first photographs taken for the yard contest must be handed the same committee as soon as possible. The second photos must be in by August 15. The picture will remain the property of the Civic Club.

Both contests end August 15. Contestants are urged to keep a copy of these rules as published in the Sentinel where they may be referred to at any time. The club trusts the girls and boys of Wrangell to comply with the conditions which it found necessary to impose. Play fair; do the work yourselves, and do your best! Competent, disinterested judges will be appointed to award the prizes and the decisions will be announced as soon after August 15, as possible.

The Civic Improvement Club will meet with Miss Woods tomorrow (Friday) afternoon at 3 o'clock.

THURSDAY, APRIL 26, 1917

MINING APPLICATION

No. 03575
United States Land Office,
Juneau, Alaska.

March 26, 1917.

NOTICE

Notice is hereby given, that the Alaska Marble Company, a corporation, duly organized and existing under the laws of the State of Maine, and qualified to do and doing business as a corporation in Alaska, by William S. Bayless, its agent and attorney in fact, has made application for patent to the Kosciusko No. 3 marble placer claim, Survey No. 1052, situated in the Juneau Land District, on the east shore of Shakan Strait, on Kosciusko Island, about 2000 feet northeast of Shakan Post Office, in Tongass National Forest, in the Ketchikan Mining District, Territory of Alaska, and tied to U. S. L. M. No. 5, which is a post 6 inches square 6 feet above ground surrounded by a mound of stone, situated on a small island in Shakan Strait, which is connected with Kosciusko Island at low water and is referred to on U. S. C. and G. S. Charts as "Astronomical Station", in Latitude 56 deg. 8 min. North and Longitude 133 deg. 28 min. 16 sec. West, which said property is more particularly described as follows:

Beginning at corner No. 1, on line of mean high tide, on the east shore of Shakan Strait, identical with corner No. 4, Kosciusko No. 4 placer, Survey No. 541, from whence U. S. L. M. No. 5 bears N 70 deg. 26 min. W 1109.20 feet distant; thence east 1265.10 feet to corner No. 2; thence south 3 deg. 19 min. west 635.40 feet to corner No. 3; thence west 1265.10 feet to corner No. 4 thence north 2 deg. 15 min. east 202.30 feet to corner No. 5; thence north 3 deg. 13 min. west 222.10 feet to corner No. 6; thence north 11 deg. 06 min. east 214.40 feet to corner No. 1, the place of beginning. Containing an area of 18.585 acres. Mag. Var. 32 deg. 30 min. east.

The names of the adjoining claims are the Kosciusko No. 4 placer, Survey No. 541, patented, on the north, and the Kosciusko No. 2 placer, unsurveyed, on the south, both belonging to the applicant Company. There are no conflicting claims.

The location notice of the Kosciusko No. 3 claim is recorded in Volume 8 of Mines page 164 of the records of the Ketchikan Recording District No. 8, Alaska.

The Season of Joy.

The festival of Christmas is grate-
fully unique because of the predom-
inant note it contains—the note of joy,
of a rapture, an abandon of delight,
which carries all before it—and, while
it surcharges the hearts of those who
are naturally gay, it also invades the
gloomiest and the most sorrowful and
creates for them a rift in the constant
clouds of the heart.—Rev. S. P. Cad-
man.

HOW FISH JUMP A DAM.

They Will Mount a Hundred Foot Lad-
der by Eight Inch Leaps.

Do you know that fish actually
jump 100 foot dams in their migra-
tions each spring to the headwaters
of the rivers in which they spawn?

Of course this 100 foot jump is
not made all in one leap, but in a
number of short leaps of eight
inches each. This feat is made pos-
sible by what is called a fish ladder.

This ladder must be placed in all
river dams in which fish such as sal-
mon swim up to the river heads to
spawn. Fish will not spawn any-
where except in the still headwa-
ters, and it is necessary that they
arrive there with the least exertion.

The government makes it obliga-
tory that at least one fish ladder be
built into every dam across such
rivers.

Fish ladders, while they may be
built of wood, stone or concrete, ac-
cording to the material of which the
dam is constructed, are all alike in
principle and consist of a trough
which begins at water level on the
low side of the dam and then ex-
tends upward in several zigzag steps
to a point below the water level on
the upside of the stream. Water
enters at the top end and flows
down and out at the bottom. Its
flow, however, is not free like that
in a sluice, but is retarded by means
of crosspieces at regular intervals
in the trough.

The water in the ladder is con-
tinually flowing down and out at the
bottom, forming a running stream
up which the fish may swim with a
choice of passing from the first pool
to the next and so on up by swim-
ming through the top notches from
one pool to the next higher one.
The jump in the latter case is not
more than eight inches and can be
done easily by almost any kind of
fish.—Popular Science Monthly.

Big Hearted Goldsmith.

Mills, a fellow collegian of Gold-
smith's, called one morning to offer
Oliver a breakfast, when he was ad-
vised in answer to his knock and in
a smothered voice to force open the
door and enter. When Mills and
others had at last forced the bolted
door they found Goldsmith so en-
tangled in the ticking of his bed
that he could not extricate himself
without help. He explained that as
the night before had been piercing
cold he had given a poor perishing
woman with five children all his
bedclothes. What could he do? He
had nothing else, not a penny, to
give her. "It was a cold night, too,"
he added, "for I couldn't at first
sleep till I thought of ripping open
the mattress to lie in the ticking."
—"Oliver Goldsmith," by R. Ashe
King.

A Death Feigning Plant.

That certain insects, birds, mam-
mals and reptiles habitually pre-
tend to be dead when danger threat-
ens them is a well known fact, but
it is generally believed that this
stratagem is resorted to only by
animals. In South America, how-
ever, there is a plant—a species of
mimosa—which resorts to death
feigning, evidently for the purpose
of preventing the grass eating ani-
mals from eating it. In its natural
state this plant has a vivid green
hue, but directly it is touched by a
human finger or by any living ani-
mal it collapses into a tangle of
apparently dead and withered stems.

Patchwork.

The idea that patchwork had its
origin in America is not founded on
fact. A thousand years before the
Christian era a queen of Egypt
went down the Nile to her last rest-
ing place under a wonderful canopy
of skins that were dyed and pieced
together in a mosaic pattern. Years
before this work had reached per-
fection and acquired a definite place
among the arts. Then, too, patch-
work quilts were made in England
in the eighteenth century, as wit-
ness the lines written by Cowper to
a Mrs. King upon receipt of "a
kind present of a patchwork quilt
of her own making."

Do You Believe In God? Then Outwardly Manifest It by Going to Church.

IT is not enough for one to say that he lives a righteous life and
that he believes in a Supreme Being. He must give OUT-
WARD MANIFESTATION of that belief.

There is only one way that a man can give OUTWARD MANI-
FESTATION of his belief in and love of God, and that is by
GOING TO CHURCH. The church is the home of God. He
reigns there. On great feast days like Easter, Thanksgiving,
Christmas and New Year's the churches are filled to overflowing.
People GO TO CHURCH to honor God and thank him for his
blessings. Don't wait for these feast days to GO TO CHURCH
and then stay away from church for the remainder of the year.
EVERY SUNDAY is a feast day of the church.

AS A RESULT OF THE COUNTRY WIDE GO TO CHURCH
MOVEMENT THERE HAS BEEN A SPLENDID INCREASED AT-
TENDANCE IN THE CHURCHES. BUT THERE ARE MANY WHO
HAVE BEEN DEAF TO THE CALL. IF YOU ARE ONE OF THESE,
MAKE UP YOUR MIND TO GO TO CHURCH NEXT SUNDAY. TELL
YOUR WIFE OF YOUR RESOLUTION, AND NOTE THE PLEASSED
LOOK ON HER FACE. TELL YOUR CHILDREN, AND IT WILL
MAKE AN IMPRESSION ON THEM FOR LIFE. A PARENT CAN
ILL AFFORD TO ASK HIS CHILDREN TO GO TO CHURCH AND
REMAIN AWAY FROM DIVINE SERVICE HIMSELF.

Going to church DOESN'T REQUIRE ANY GREAT SAC-
RIFICE. The services are at a reasonable hour. They are not
long. You surely MEET THE RIGHT KIND OF PEOPLE
there. The sermons invariably are INSTRUCTIVE AND UP-
LIFTING. Try going to church next Sunday. See if you don't
feel better for it. It will help you to overcome the temptations
of the world. You'll hesitate before you do a wrong act. Sin
brings its punishment; righteousness its reward. If you want to
earn the reward of righteousness and avoid the punishment of
sin, be a regular church attendant.

START NEXT SUNDAY TO BE A CONSISTENT CHURCH-
GOER.

Few realize how RUST threatened the extinction of "Steel Ranges." Sheet metal, steel or iron is the ideal material for range bodies and ovens. But RUST would destroy it! Rust that worked from the inside not outside.

So there the MONARCH built its defence of VITREOUS ENAMEL, a material you know from every day household experience is not effected by Rust. Every inch of the MONARCH'S flues is covered with this non-rusting protection.

You can enjoy the satisfaction of cooking on a MONARCH Range year in and year out. No danger of breakdown—no danger of rusting out, just continued satisfactory service. We don't know for how long! But from the looks of this splendid Range we'd guess a life time.

Come in—look it over and see if you don't agree with us

THE CITY STORE
Wrangell, Alaska

Local and Personal

J. G. Galvin and C. A. McCusker came in from Groundhog yesterday afternoon.

LOST—A plain gold cross. Finder will please return to this office.

For the shave of satisfaction go to Ed Grigwire's shop in the Uhler Block.

Charlie Darwell's new pile-driver is about completed and will be taken in tow Saturday by the Harold with Thorne bay as its destination.

Mr. and Mrs. Harry Gartley and family returned on the Spokane Tuesday evening from an extended sojourn in Southern California.

Try an electric massage by J. P. Levering at Patenaude's stand.

The Bank of Alaska will move into the new bank building the last of this week. The formal opening of the bank's new home will occur on Tuesday, May 8.

Mr. and Mrs. F. E. Barlow arrived from the States on the Dolphin Saturday afternoon. Mr. Barlow is superintendent of the Point Warde cannery.

Mr. H. Winter who has spent the winter in Wrangell will leave on the Princess Sophia for Seattle from which place he will go to his home at Eagle Cliff, Wash.

Mr. and Mrs. E. E. Reese who were here last year with the Coast and Geodetic Survey arrived in Wrangell on the Dolphin. They will leave in a few days for Juneau where it is likely that they will be located the coming season.

For Sale—Baby buggy cheap. Call at this office.

Dr. C. H. Upton, of La Grande, Oregon, who is touring Alaska for the first time, is stopping in Wrangell for a few days. Dr. Upton is a friend of the family of William Tamaree.

Electric massages.—J. P. Levering at Patenaude's stand.

The S. S. Spokane arrived Tuesday afternoon with the following passengers for Wrangell: L. O. Colbert, Miss Mary Colbert, D. J. Dackins, H. Gartley and family E. E. Reese and wife, Dong took, and Tom Sing.

Try the new barber shop in the Uhler Block.

Mrs. E. E. Kalkins and babe returned on the Dolphin Saturday from Chillicothe, Mo. where she has been for several months visiting with her mother.

Archdeacon John F. Emery, father of Dr. C. E. Emery, arrived from California on the Dolphin Saturday. In company with the Archdeacon was Miss Elfrieda Emery, daughter of Dr. and Mrs. C. E. Emery. Miss Emery has been attending the Anna Wright seminary at Tacoma.

George Huth, assistant cashier of the Bank of Alaska, has resigned his position in order to accept another in Chicago, his former home. Mr. and Mrs. Huth will leave on the Princess Sophia. During the short time that this young couple have resided in Wrangell they have endeared themselves to the people of the community, and will be missed in social and religious circles.

The Humboldt arrived in port early yesterday morning. The Wrangell passengers were: John Stein, Karl Zarth, Bruce McGill, O. Johnson, J. H. Brown, Samuel Franson, D. M. McMullen, A. P. Crawford, Chas. Binkley, S. A. Sniffer.

H. Berger, one of the pioneer fish men of Southeastern Alaska, and formerly with the Lindenberg people, arrived in Wrangell on the Dolphin, and will leave for the West Coast on the Uncle Dan tonight.

Mrs. Colbert, accompanied by her little daughter, Mary Louise, arrived on the Dolphin and are guests of Mr. and Mrs. F. E. Bronson. Mrs. Colbert is the wife of Capt. L. O. Colbert who was on the King and Wing last season, and who has been putting in the winter dragging in San Francisco bay. He is enroute from San Francisco to Juneau. The Coast and Geodetic Survey will conduct extensive dragging operations on Gastineau channel the coming season.

For quick reliable service—Grigwire's barber shop in the Uhler block.

The fire company was called out Tuesday morning on account of a fire on the roof of the residence of Mrs. Moore, a Native woman. The fire was extinguished before any great damage was done.

Both Seattle and Wrangell ice cream on sale at T. J. Case's.

F. J. Tromblé of Hoquiam, Wash., was in Wrangell two days this week visiting Mr. and Mrs. W. H. Warren. Mr. Tromblé and Mrs. Warren are brother and sister.

Mrs. P. C. McCormack and little son, Peter, and Miss Ada Dahlstedt were passengers to Juneau on the Dolphin Monday. Mrs. McCormack and little son will return with Hon. P. C. McCormack following the adjournment of the legislature early in May.

Hans Rosmoe was brought in Sunday from Gordon McDonald's logging camp with a badly fractured nose. He was taken in charge by Dr. Pigg and is now recovering at the Wrangell hospital.

Jeff Sickler, was tried before U. S. Commissioner Wm. G. Thomas Tuesday evening on a charge of vagrancy. The jury returned a verdict of guilty. The Commissioner fined the defendant \$250. In default of payment of fine Sickler was committed to jail for 125 days. He will be taken to Juneau.

Ice cream cones at T. J. Case's.

Colonel Mason, who spent the winter outside, is back in Wrangell.

Hair cutting a specialty by J. P. Levering at Patenaude's stand.

Cones, cones, cones; thousands of cones ready to be filled to order, at T. J. Case's.

In publishing the home guard enlistments last week we inadvertently omitted the name of Ed Lindman.

Nick Peratovich, foreman for the North Pacific Trading and Packing Co. at Klawock was in Wrangell the first of the week.

A. Catter, auditor for the Grand Trunk, was in Wrangell the first of the week.

Chas. Morse of Karheen was in Wrangell this week.

N. M. Tate and Mr. and Mrs. A. B. Leonard of Union Bay have been in Wrangell several days.

W. F. Hale, superintendent of the cannery of the North Pacific Trading and Packing Co. at Klawock, came in last week to meet Mrs. Hale who arrived from San Francisco on the Dolphin. Mr. Hale and party left for Klawock on a gasboat Tuesday morning.

R. Percival Worthington who has been in charge of the pumps at the Vermont Marble quarries has been promoted to chief engineer on Burley no. 7.

Native Voters

The question of the right of Alaska natives to vote is on which is bound to be the subject of much discussion in the immediate future. The following interesting comment is from the Unalakleet correspondent of the Nome Industrial Worker: "I see that much ado is made as to the native voting. What are they going to do about it? Citizenship is one right over which the United States exercises exclusive jurisdiction, and it is not up to any state or territory to say what shall constitute a citizen of the United State. A state may pass a law regulating the vote of a citizen, but not a law as to what constitutes a citizen, so the law passed in 1915 by the Juneau Solons (Chapter 24 and Section 23 of Chapter 25) in relation to Eskimo natives is null and void. But if here is any kick, why not have the matter settled by a competent court? The judges of the Unalakleet election invited the representative of the bureau of education to challenge the Eskimo voters, with a view to making a test case, and he after reading the laws upon the question, could not see where he had a challenge coming. The bureau of education is to be congratulated upon having at least one gentleman of intelligence in its employ."

St. Philip's Church

The first of the series of sermons on "Man's Place in Nature" was delivered last Sunday evening at St. Philip's church. The theme was "Man and the Atoms." The argument was if man is not free, he is made up of atoms, and is subject to the laws of necessity just as matter is. But the universal testimony of mankind, shown in human laws is "That he is free, and different from the atoms and above them. His business is to rule over them."

"How can this destiny be realized," will be the theme for Sunday evening, April 29. The subject of the sermon will be "Man and his Evolution."

Mrs. Smith, wife of Capt. Robert Smith of the Salvation Army, has received the sad intelligence of the death at the front of her nephew, Capt. J. Duff Stuart, jr., who was a member of the Royal Flying Corps. Capt. Stuart was only 22 years of age. He spent all of last year in the trenches. This is the fourth relative of Mrs. Smith who has been killed at the front within the past few months.

The gas-boat Wanick which is under lease by the Coast and Geodetic Survey arrived in port this week from Tacoma. The Wanick will take to Juneau the drag rigging which has been stored in Wrangell since last season's work.

O. A. Brown returned to Seattle on the City of Seattle last week.

There will be a fleet of at least five boats on the Stikine this season. Boats which will begin operating next month are the Nahlin, Hazel B No. 2, Rex, Iskoot and Cassiar.

Mr. and Mrs. Sam Guyot of Juneau were visitors to Wrangell this week.

Jeff Cassen, one of the landmarks of the Wrangell district, came in yesterday from Snow Pass. This is Mr. Cassen's first trip into town in 14 months.

The Vermont, Capt. Frank Farrer at the wheel and Raymond Ready in charge of the engine room, came into port this week for the purpose of taking out eight workmen who arrived on the Humboldt.

Mrs. J. S. Clarke has gone to Seattle for a visit with her daughter, Miss Virginia Clarke, who is attending the University of Washington. Mrs. Clark and Miss Virginia will return to Wrangell together.

ANOTHER MINE TO BE OPERATED ON WEST COAST

George Pulver, a mining man, accompanied by G. H. Graves and S. O'Connell, mining engineers, arrived on the Uncle Dan yesterday from the West Coast. Mr. Pulver has taken over a copper property one mile from Sulzer, which has been operated previously. Mr. Pulver now has a force of men at work constructing a dock and will be making ore shipments this season. Mr. Pulver and party left on the Dolphin this forenoon. He will return to Alaska in less than a month.

Child Falls In the Bay

There was no little excitement on Front street Monday afternoon when it was reported that little Clarence, the two year old son of Mr. and Mrs. David Lewis, had been drowned. There was likewise a feeling of general relief when half an hour later it became known that the little fellow had been resuscitated.

The child fell into the bay at about three o'clock, and it probably remained in the water fifteen minutes. When discovered afloat it was quickly brought out by Fred Lewis. The child was apparently dead and no one supposed it would ever breathe again. Dr. and Mrs. Pigg were near and lost no time in putting forth efforts to resuscitate the little one. More than fifteen minutes were spent before there was the least sign of life. The child had been in the water long enough to be thoroughly chilled, and its recovery from a state of apparent death was almost like a miracle. It owes its life to its resuscitators.

The Wrangell bay has been dotted this week with trolling boats.

Ladies' visiting cards neatly printed at the Wrangell Sentinel.

J. H. Storheim and Knute Gordan arrived this week from Tokelo and left for Juneau.

Mr. and Mrs. F. H. Gold were in town several days this week from Lake Bay.

Attention Loggers!

Profitable logging contract open to thoroughly experienced logger having complete equipment. Wire night letter giving full details regarding equipment and experience. Two or three years work open to right party. Address Cordova Mill and Lumber Company, Cordova.

National Forest Timber for Sale

Sealed bids will be received by the Forest Supervisor, Ketchikan, Alaska, up to and including May 26, 1917, for all the merchantable dead timber standing or down and all the live timber designated for cutting on an area of approximately 100 acres, beginning at a point on the west shore of Prince of Wales Island about one mile south of the mouth of Stanley Creek designated by a stone monument and a blazed tree 10 feet from said monument marked F. S. M., thence in a southerly direction along the shore across dry creek, past an old cabin for a distance of 40 chains, including all the area within 1500 feet in an easterly direction from the shore line above described, estimated to contain 800,000 board feet of spruce and 300,000 board feet of hemlock, more or less. No bid of less than \$1.50 per M feet for Spruce and 50c per M feet for Hemlock will be considered. Deposit with bid \$200.00. The right to reject any and all bids reserved. Before bids are submitted full information concerning the timber, the conditions of sale, and the submission of bids should be obtained from the Forest Supervisor, Ketchikan, Alaska.

George Shakes was arrested Saturday night on a complaint filed by his wife charging him with having assaulted her. Monday morning Shakes was arraigned before U. S. Commissioner Wm. G. Thomas. The defendant pleaded guilty, his explanation being that he and his wife were both drunk. He was sentenced to ten days in jail.

COLUMBUS, April 26. — The Darcy championship fight has been forbidden by the governor.
